## **The Only Constant in Life is Change**

**Despite the above average temperatures outside, fall is approaching. Temperatures will cool, leaves will turn colors, football season approaches, schools resume...change is in the air.**

**The concept of 'change' has been on my mind as of late. The Greek Philosopher, Heraclitus, has been credited with the saying 'the only constant in life is change.' In my opinion, there really isn't a truer statement.**

**Sometimes change is sought. Sometimes change is feared. Depending on the circumstances, change can also be welcomed, exciting, unexpected, or devastating.**

**In the past two months, we have had our share of exciting and heartbreaking changes at the Open Door Center. We've celebrated Mary Simonson's retirement, welcomed new staff joining our team, and welcomed new individuals into supported living arrangements. Celebratory changes to say the least!**

**We've also had our share of devastating, unwelcome change. Mary Simonson's untimely passing rocked our world at the Open Door Center. Our individuals served and veteran staff not only had to adjust to the idea of her retirement but also to her permanent absence. 'Devastating' is an understatement.**

**WE WANT YOUR CANS**

Open Door Center is looking for donations of *pop cans* for our individuals to crush. Once crushed they are turned in to be recycled.

Our folks get paid to crush cans and look forward to the paychecks they receive.

Cans can be dropped off at the Day Activity Center (north of Pizza Corner).

**OR**

If you live in the Fargo area, you can take your cans to the MinnKota Recycling center and tell them you want to donate them to Open Door Center in Valley City. They send us a check quarterly.

Please help us,  
won't you?

I officially began as Executive Director of the Open Door Center on July 1, 2023. I left behind 22-years in the field of special education behind to embrace an exciting, unexpected, and challenging new career change. I have learned something new EVERY DAY since July 1 and am beyond grateful for the support and guidance from the ODC Board of Directors, families, individuals, and staff thus far.

Change is constant. Change is inevitable. Change...whether welcome or unwelcome...is always easier with great support.

## MARY ELIZABETH SIMONSON

*November 18, 1946 - August 3, 2023*

### **Questions Answered: A Note to our Open Door Center Family** **By Nick Simonson**

I was asked by an acquaintance: “did you know how well-liked your mother was?” Honestly, having just stood before her co-workers, like-minded community volunteers, and friends for the second time in five weeks to recap all that she meant to me, and to what I presumed similarly she represented to those outside our small family circle; it began to dawn on me how much bigger that bound was for her, and how many more people likely fell within it.

As you may know, my mother, Mary Simonson, died unexpectedly on Aug. 3, 2023, after falling while out for a routine morning walk, something she loved to do before work, often in the early morning dark with her various dogs owned throughout her lifetime. Having tried to put the pieces of that event together with all the things that led up to and occurred after has been a challenge for our family, and I’m sure for many of you. As I referenced at her prayer service, we’ve asked way too many “what if” questions in an effort to make it make sense.

That, as I mentioned then, however, is the wrong question to be asking, simply because that is the question she answered for so many of us through her work, her volunteer efforts, and in her daily life. She figured out the solution to the troubling variables contained in those two words for the parents and guardians of clients, for state legislators, for community leaders and for others who wanted to make a difference in the lives of their families, friends, and neighbors. She met the uncertainty of fledgling programs such as the Open Door Center, which she joined in 1982, and the HI Soaring Eagle Ranch later on, with a confidence of Teddy Roosevelt, knowing that in any “what if” situation, the best thing you can do is the right thing (which she often had a knack for rooting out quickly and efficiently), the second best thing you can do is anything, and the worst thing you can do is nothing. She was never much for the latter.

.....continued on page 7

...continued from page 6

Her life was one of action, of personal contact, of working together with staff and decision-makers to provide the best possible experience for those with developmental disabilities in the schools and businesses of their communities and in their daily lives. She was always on the go, up well before dawn preparing for the day, exercising, getting us ready for school, and then out the door to the various “other duties as assigned” that she seemed to relish adding to her own job description; whether it was serving breakfast at the Prairie Inn, checking inventory at the Eagle’s Nest bookstore, or the more traditional daily tasks and long-term planning that come with an Executive Director’s role.

That is the legacy Mary Simonson leaves, and as a sense of meaning is revealed in time through the parting of a fog of doubt, sadness and frustration that comes with her death, among the answers to all our questions will be that guideline for you as her teammates at Open Door Center, HI Soaring Eagle Ranch and the various programs under them – **take action!** We don’t know the bounds of our days, but likewise we don’t know the limits of our potential to make this world a better place with our time allotted in it; whether it’s for one person under our care, thousands in our communities, or millions in our world.

Thank you to all the clients, staff, and champions of the Open Door Center who have provided comfort and well-wishes to our family during this time, I will always look back fondly on the organization and what it and all of you have meant to us and to my mom. Not only was she loved by so many of you as you have conveyed in your condolences and memories of time with her, but I realize more and more how much she loved you all, in her daily thoughts, conversations and actions. Carry that love in ***your*** actions going forward, and we will never be without her.

## Are You Ready-Are You Ready?

These were the opening words of a song written especially for the Special Olympics 2023 World Summer Games. Following that question were the words "for the greatest moments of your life"

Indeed! The team representing the United States was! The Games held in Berlin, Germany were from June 12-25<sup>th</sup>. The United States was a delegation 196 members strong. Of the 26 sports offered at the Games SOUSA competed in 16 of them. Those sports were-basketball (5 player and 3 on 3), bocce, bowling, golf, tennis, swimming, volleyball, soccer, track and field, powerlifting, gymnastics (artistic and rhythmic), sailing, kayaking and cycling.

North Dakota was represented admirably by Jennifer Bennett. Jennifer competed in track and field. She ran the 800m, 1500m and was a member of the 4x400m women's relay team. Jennifer came home with personal best times in all three of her races and with a silver medal in the 800 a 6<sup>th</sup> place finish in the 1500 and her relay team finished first but were disqualified for a lane infraction by one of her teammates. Well done Jennifer....well done!!!

The Games brought together 170 countries. The Opening Ceremonies were held in the historic Olympic Stadium. The one in which Jesse Owens won his Gold medals back in 1936. There on June 17<sup>th</sup> 20,000 spectators watch the parade of athletes. Chills and tears of joy were felt as the crowd spontaneously gave a standing ovation to the small but mighty team from Ukraine as they marched in!!!

The team from the United States did an outstanding job both on and off the fields of play. What an absolutely awesome once in a lifetime experience for all those who proudly wore the RED WHITE and BLUE.....

***Hello Everyone!***

***It is almost September. I hope all the kids are getting back into their school routines as they have been back to school for a few weeks. We like to think of September as the month of apples, as apple picking becomes a common weekend pastime. The seasons are changing and Fall is upon us. The days become cooler and shorter and the leaves are changing colors and falling off the trees. The gardens may be winding down. Harvest will be coming to an end soon, but there will be pumpkin patches or arts and craft shows. A few days that stick out to me are Labor Day and Patriotic Day. Don't forget Halloween and to be safe all you Trick or Treaters!***

***Get out and enjoy the changing colors, the festivals and Fall activities.***

***Until next time. . . . .KATIE***

# Cooking Safety

Cooking brings family and friends together, provides an outlet for creativity and can be relaxing. But did you know that cooking fires are the number one cause of home fires and home injuries? By following a few safety tips you can prevent these fires.

## "COOK WITH CAUTION"

- Be on alert! If you are sleepy or have consumed alcohol don't use the stove or stovetop.
- Stay in the kitchen while you are frying, boiling, grilling, or broiling food. If you leave the kitchen for even a short period of time, turn off the stove.
- If you are simmering, baking, or roasting food, check it regularly, remain in the home while food is cooking, and use a timer to remind you that you are cooking.
- Keep anything that can catch fire — oven mitts, wooden utensils, food packaging, towels or curtains — away from your stovetop.

## If you have a small (grease) cooking fire and decide to fight the fire...

- On the stovetop, smother the flames by sliding a lid over the pan and turning off the burner. Leave the pan covered until it is completely cooled.
- For an oven fire, turn off the heat and keep the door closed.

## If you have any doubt about fighting a small fire...

- Just get out! When you leave, close the door behind you to help contain the fire.
- Call 9-1-1 or the local emergency number from outside the home.

## Cooking and Kids

Have a "kid-free zone" of at least 3 feet (1 metre) around the stove and areas where hot food or drink is prepared or carried.

## FACTS

- ❗ The leading cause of fires in the kitchen is unattended cooking.
- ❗ Most cooking fires in the home involve the kitchen stove.
